
IMPORTANT SAFETY INSTRUCTIONS

This product uses a polarized plug (one prong is wider than the other) to reduce the risk of electric shock.

This plug can only be inserted into a polarized socket in one orientation.

If the plug cannot be fully inserted into the socket, reverse the plug.

If it still cannot be inserted, contact a qualified electrician.

Never use an extension cord unless the plug can be fully inserted.

Do not attempt to disable the safety features of the polarized plug. Do not modify the plug.

Note:

To prevent electric shock, align the wider prong of the plug with the wider slot of the socket and insert it fully.
