Installation instructions:
In order to achieve the desired aesthetics, this wall lamp needs to be embedded in the wall. Before purchasing, a square hole (L95*W60*S40mm) must be reserved on the wall for proper installation. Failure to do so may result in the lamp being unable to be securely mounted. We highly recommend consulting with a qualified electrician before completing your purchase to ensure seamless installation and optimal functionality.

1:Fix the hanging board to the wall

2:Connect the lamp wires to the reserved wires

3:Assembly of lamp body
