

# IMPORTANT SAFETY INSTRUCTIONS

INSTALLATION BY A LICENSED ELECTRICIAN IS STRONGLY

Note: Turn off the power to the main circuit panel before starting.

## HEAVY LOAD WARNING

Do not install on non-load-bearing ceilings; it must be directly connected to the main structure of the house.

## WARNINGS

When unpacking, be careful not to pull wires, as a bad connection may result. Do not connect electricity until your fixture is fully assembled. To reduce the risk of fire, electrical shock, or personal injury, always turn off fixture and allow it to cool prior to replacing the lightbulb. Do not touch or look directly at the bulb when fixture is illuminated. Keep flammable materials away from lit bulb.

## WARNINGS

Choking hazard. Keep the power cord at least 3 feet away from cribs, bassinets, and toddler beds.

## WIRING SAFETY NOTES

When connecting wires, please follow the standard color coding: black to black (live), white to white (neutral), and green/bare copper wire to ground.

## RECOMMENDED

Please refer to the rated power at the lamp head, and do not exceed the recommended wattage to avoid fire hazards. When checking the circuit connections, the curtains need to be removed

THIS PRODUCT IS NOT A TOY AND HAS NO PLAY VALUE.

1

Use screws to lock the lamp arm onto the lamp body

2

Use electrical tape or terminal caps for wiring

The main line is connected to the wires  
of the same color

3

Install the light pole

4

Fasten the hanging board to the ceiling with screws

The wires in the home are connected to the wires in the lamps through the wire terminals

# 5

The side screws fix the lamp body to the ceiling plate

6

Install the light source and lampshade
