5:Tighten a portion of the hardware to secure the power cord

Installation introduction

1. Before installation, you must install the LED driver.

If the LED driver is not linked, the light source of this lamp will be destroyed by high voltage

2. Each of our lamps is equipped with an extra LED driver. If the lamp is damaged, you can replace it by yourself.

3. Each lamp is equipped with an installation instruction. Please install it according to the installation instruction. If you don't know how to install it, please contact our customer service team, or log in to our website to view the installation video of this lamp.
