

- 1 Take out all the accessories first
- 2 Tighten the two iron rings and the straight tube legs with a wrench in sequence, and lock them in line with the holes.
- 3 Lock the 22XL600 straight tube and the 13X26 square tube on the two round iron rings
- 4 Insert the 16 straight light pole into the 22X600 straight tube and lock it with a rotating flower branch
- 5 Fix the lampshade with the lamp ring
