

Installation Instructions

This is the space above the ceiling

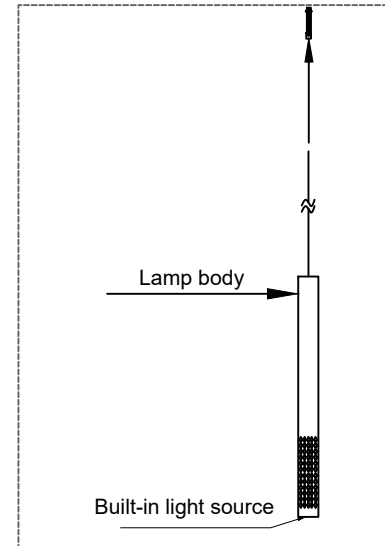

Note: People need to connect wires on the ceiling

Note: Please tell us the thickness of the ceiling so that we can match the rod with the appropriate length.

Ceiling (Ceiling after hanging ceiling)

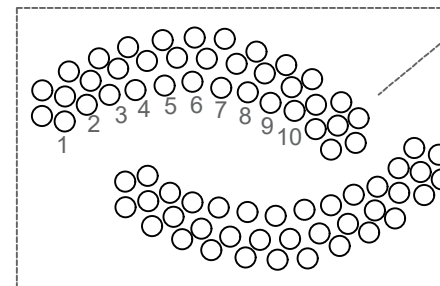

Summary:

1: The lamp is equipped with a rod and a nut, and the nut is used to fix the lamp body on the ceiling.

2: People enter the ceiling and connect the wires inside.

Front view

Ceiling modeling installation:

We provide a large piece of paper with serial numbers, which can be installed on the ceiling accordingly.
